## Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

## Tutoring Experience

Throughout my career, I have guided students in IB Chemistry (SL and HL) and other international qualifications such as A-Level and IGCSE. My students have achieved top scores, many progressing to top universities in Europe and beyond. I ensure they master core concepts to excel in both classroom and exam environments.

In addition to my extensive work with IB students, I've also mentored students preparing for NEET and JEE exams, offering guidance in Physical Chemistry and ensuring they are well-prepared for these challenging exams. My passion for chemistry drives me to create tailored learning plans that address each student's unique strengths and areas for improvement.
